

Make a Juneteenth Windsock

1 Decorate.

Use crayons or markers to color the paper. If you like, you can also color, cut out, and glue or tape the Juneteenth shapes onto your windsock.

2 Add streamers.

Flip the paper over to the plain side. Using tape or a glue stick, attach streamers to the bottom of the paper.

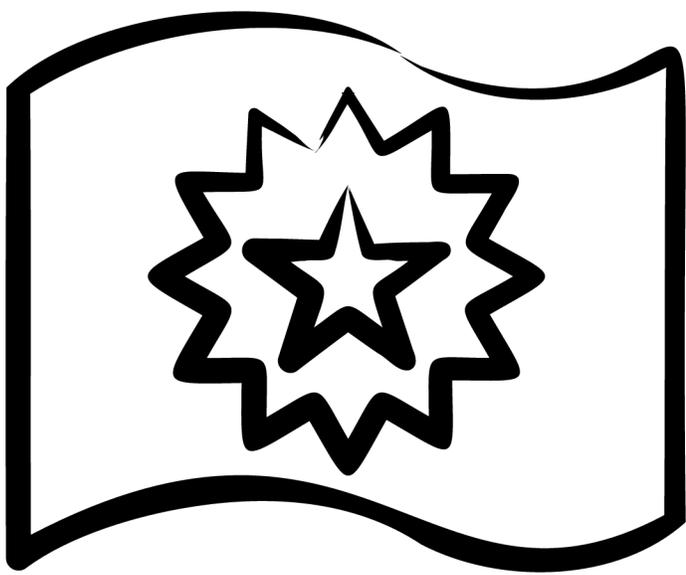

3 Roll it up.

Attach the two short sides together to create a cylinder and tape it shut.

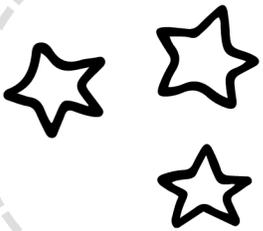

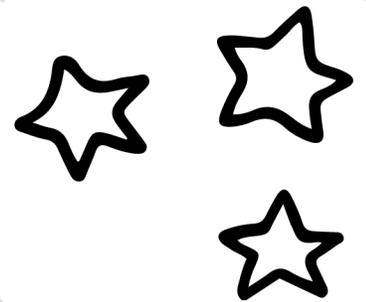

3 Hang it up!

Tape the pipe cleaner to two sides of the windsock to make a hanger. Find an indoor place to hang it, maybe near a window!
